### [Gluten-Free Diet In Pregnancy Could Help Prevent Type 1 Diabetes In Children](#)

[admin](#) | June 5, 2014 | [Comments \(0\)](#)

It has been estimated that around 400,000 people in the UK live with type 1 diabetes – and almost 30,000 of these are children. It is a problem that is only going to get bigger, with the incidence of type 1 diabetes in children increasing steadily year on year. In fact, the UK has the [...]

### [The End Of Daily Insulin Injections for Type 1 Diabetics?](#)

[admin](#) | January 16, 2014 | [Comments \(0\)](#)

Watching episodes of 'Star Trek', more years ago than I care to remember, I was always fascinated when 'Bones' (Doctor McCoy) gave crew members medication by a painless, needle-less injection. I wondered whether, one day, it could become a reality. Well it seems like that day has almost arrived and that one of the first [...]

### [Avoid Potentially Disabling Diabetic Foot Ulcers](#)

[admin](#) | March 7, 2013 | [Comments \(1\)](#)

One of the most frequent complications of diabetes is neuropathy or nerve damage, which can cause diabetic foot ulcers. The commonest type of diabetic nerve damage is called peripheral neuropathy and affects the nerves in the feet and legs. This type of neuropathy can lead to a condition called diabetic foot ulcers and other problems [...]

### [Low Levels Of Vitamin D Raise Type 1 Diabetes Risk](#)

[admin](#) | December 13, 2012 | [Comments \(0\)](#)

In Real Diabetes Truth on 26 January 2012, I wrote about the dangers of vitamin D deficiency and how important this vitamin is for people with diabetes. Low levels of vitamin D have been firmly linked with the development of insulin resistance and type 2 diabetes. I am writing again about this vital issue in [...]

### [Oral Insulin Capsules Herald A Diabetes Breakthrough](#)

[admin](#) | October 11, 2012 | [Comments \(1\)](#)

At present, the only way for people with type 1 or type 2 diabetes to take insulin is by injection. Insulin injections can be a harrowing experience and anybody who has to use them would love to be able to just swallow a capsule instead. Developing an oral form of insulin has been a "holy [...]"
